

Audio & Video Entry Systems

Comelit Vipkit

Vipkit is the new, simple, expandable but, above all, intercommunicating video door entry kit made by **Comelit**. Based on exclusive Comelit SimpleBus technology – the benchmark of simplicity - it consists of the new **Powercom**, Entrance panel with its unmistakable blue LEDs, and an original and clear-cut design, and of Videocom, the new video entry phone with unmistakable technology and design. It is available in both single or two-family versions.

The single-family version has the "privacy" function as standard and the intercom function when the system is expanded with one or more telephones/monitors. The intercom service and "privacy" function are available in the two-family version without addition of any accessories. From the basic Configuration, the Kit can be expanded up to solutions with 2 external units and with 6 monitors per home unit.

Wall-mounted VIDEOCOM Monitor

Wall-mounted black and white Videocom Monitor with 4.5" screen, white Ral 9010 colour, electronic call, brightness and call volume adjustment controls. Complete with door opening pushbutton and 2 additional free pushbuttons (N.O.) for other services (monitor self-lighting, control of lights, etc.).

By adding the optional card art.4703, it is possible to add two additional pushbuttons and a signaling LED.

Desk-mounted VIDEOCOM Monitor

Desk-mounted black and white Videocom Monitor with 4.5" screen, white Ral 9010 colour, electronic call, brightness and call volume adjustment controls. Complete with door opening pushbutton and 2 additional free pushbuttons (N.O.) for other services (monitor self-lighting, control of lights, etc.).

By adding the optional card art.4703, it is possible to add two additional pushbuttons and a signaling LED.

Providing bespoke solutions for the **C**ommercial, **D**omestic and **I**ndustrial market is our speciality.

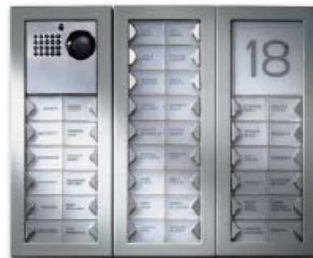

Powercom is the result of an extremely advanced technological concept where total modularity is one of the major aspects.

Solutions with 1,2,3,4,6 and 9 modules are available.

Powercom: this is **Comelit's** new entrance panel which changes the face of design and the way of working.

Exclusive illumination with blue LED's makes it magical and unmistakable.

Its simple, strong and clean-cut lines, new colours and top quality materials, such as the aluminium module-frames and cornices and the stainless steel faceplates make Powercom an attractive and robust entrance panel.

The Vipkit provides us with the ability to replace an Audio Entry systems where only standard cabling has been installed E.g. no Video Coaxial cable with a semi digital Video System in either Monochrome or colour providing easy of use and reliability.

Simply design, colour and technology. **Powercom.**

Providing lo-cost, high functional bespoke systems, which complement your property, is our speciality.
